## elasticsearch

Want to use Elasticsearch in your own on-premises, cloud, or hybrid environments and get the benefits of lifecycle automation? ClusterControl gives you the power to maintain cluster uptime at scale.

Versions: 7.17.3, 8.1.3, 8.3.1

Elasticsearch on ClusterControl gives you

✓ The only full lifecycle orchestration platform outside of Elastic Cloud

✓ Click ops for essential tasks like add / remove nodes, reboot hosts, etc.

✓ Automatic seamless scaling of primary and data nodes

✓ On-premises, cloud, and hybrid management from a single CLI, API or GUI

✓ Backups on local shared or AWS S3 compliant cloud storage

✓ RBAC and LDAP and audit logging to track user authentications and activities

> "ClusterControl enabled us to build automation around the platform for self-service provision while being able to determine the patterns of deployments consistently without DBA involvement."
>
> Kevin Naik, Head of Databases, ABSA
