# Valkey

Standardize, automate, and scale your full lifecycle ops, simplifying on-prem, cloud, and hybrid deployments with ClusterControl.

Versions: 7

Valkey on ClusterControl gives you

✓ Highly available, scalable Valkey Clusters with automatic failover, and backup management functionality

✓ Key lifecycle ops features like add/remove/restart nodes, and the ability to reboot a host, and promote a replica

✓ Real-time observability into host and database performance metrics

✓ User access control management via RBAC and LDAP, and audit logging to track user authentications and activities

---

(absa)

"ClusterControl enabled us to build automation around the platform for self-service provision while being able to determine the patterns of deployments consistently without DBA involvement."

Kevin Naik, Head of Databases, ABSA
